

FMCSA System Release Notice

The last of three patch releases to address Enforcement Management Information System (EMIS) functionality errors will be released on April 20, 2007.

EMIS 7.2.1 Release Notice

April 20, 2007 Release

The following changes will be implemented in **version 7.2.1**:

1) Application Fixes

- The Amount Due shown on Memo to Finance will no longer display an incorrect amount.
- The Total Payment Due now updates correctly when the violation final amount has been changed.
- Alerts on 90-day clock rules for the Notice of Default and Final Agency Order (NDFAO) process have been corrected.
- Blank columns on 900/HM reports have been corrected to display data.
- The Order Show Cause – Miss-payment (OSC-MISSPMT) alert rule now matches the Order Show Cause – Notice Final Agency Order (OSC-NFAO) alert.
- A new activity has been added that enables the Notify Subject of Effects of Bankruptcy Order (NSOBO) alert to be turned off.
- A new activity has been added for the Field Administrator to extend the time allowed for a carrier to reply to FMCSA for the Part 386 Settlement Agreement process.
- Users can now enter a Settlement Agreement any time after the Notice of Default and Final Agency Order (NDFAO) is served.
- The “AA signature” label name has been changed to “AA approval” where relevant.
